Adding Views, Likes and Comments

Adding likes and views can be a great way to boost your ranking in YouTube.

Best when they are added naturally

EASY VIDEO PAYDAY

- I am not a big fan of buy likes and views for when I am trying to rank in Google.
- In my experience it doesn't have as much effect in Google as it does in YouTube.
- And it can be very expensive to pay for thousands of quality views. So I do not normally do this.

EASY VIDEO PAYDAY

However I will add a few likes to some of my videos at times. I have heard that it can help prevent your video from being taken down. And so far it has helped.

It's hard to say how much it helps. And ultimately it is important to have a quality video that does not get flagged.

EASY VIDEO PAYDAY

But sometimes there are jealous competitors that just want to knock you down. So adding likes may help with situations like this.

This is something I do not recommend. It just simply brings bad karma.

EASY VIDEO PAYDAY

I no longer have comments on my videos except for the ones that naturally appear.

I've had videos that have been taken down right after buying comments and feel like it is something that can obviously look spammy and give moderators the reason to take down a video.

Try to keep things as simple as possible.

Get Paid!

Now that you've created your optimized video and have added backlinks to it, it's time to sit back and watch it rank.

EASY VIDEO PAYDAY

It is not uncommon to see commissions generated within the first day of creating your video and adding your backlinks.

Especially if you are promoting free trial offers or zip submits.

EASY VIDEO PAYDAY

If your video still hasn't ranked and it's been 5-7 days after they've been posted then feel free to submit some more social bookmarks

Or use other linking methods described previously such as posting to more article directories or blog networks.

EASY VIDEO PAYDAY

Many people still are very cautious after hearing about algorithm changes and Google's new and increasing rules about link building.

But I can say from experience that posting 1,000+ social bookmarks in one day or doing massive article submissions have had very positive effects on you YouTube videos.

EASY VIDEO PAYDAY

To this day the results I get are fast rankings in the search engines. No sandbox penalties or unnatural link building messages whatsoever.

When you are starting out I'd recommend sticking to about 3 campaigns at first and see how that works out.

EASY VIDEO PAYDAY

After you start making sales and see how it works for you then you will become more motivated to repeat the process with a more products.
